Web-Captioner

https://webcaptioner.com/captioner

A free web-based service that uses automated captioning and displays a real-time transcription in your browser.

So Many Choices

- Ever-growing / changing selection of new tools
- Variation in purpose
- Variation in quality

How do we know what to choose?

#EmTechMOOC

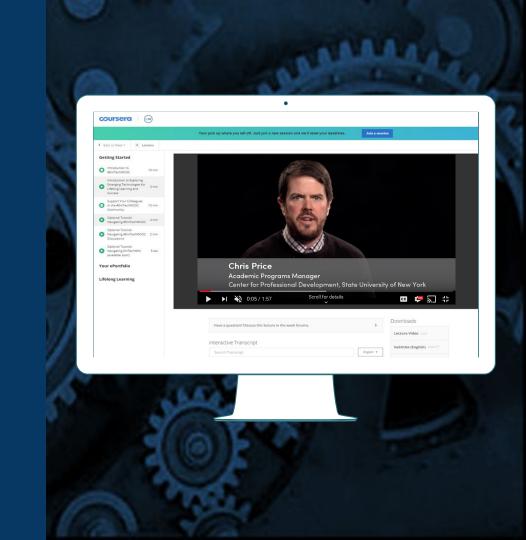

Discovery learning to explore and reflect on innovative and creative uses of emerging technologies.

Learning Opportunity targeted to...

- ALL Learners
- Anyone with an interest to stay current with today's rapidly changing technologies
- Especially students & instructors

#EmTechMOOC

Coursera MOOC provides a supportive online learning opportunity

"Four Cs of 21st Century Skills"

EmTechWIKI

Socially curated WIKI repository of freely-available tools & resources

Used in #EmTechMOOC to complete assignments

Open website also available as a standalone resource

Elements of Design Quick Reference Poster (+2 rating, 2 votes, rated)

4349 views

This poster, created by Paperleaf, is a handy reference that provides a quick overview of the C.R.A.P. principles of design; a refresher for those in the know, and a starting point for design newbies. C.R.A.P stands for Contrast, Repetition, Alignment, and Proximity. Keep these concepts in mind to remind yourself of prominent design principles. Principles of Design Quick Reference Poster Keywords: Media, Photos & Images, Presentations, Publishing, Visual Design

Mapping #EmTechMOOC's Global Reach $\otimes \otimes$ \otimes \otimes 18,122 \otimes Learners \otimes Non-scientific mapping of enrollments as of 6/14/20

What is accessibility?

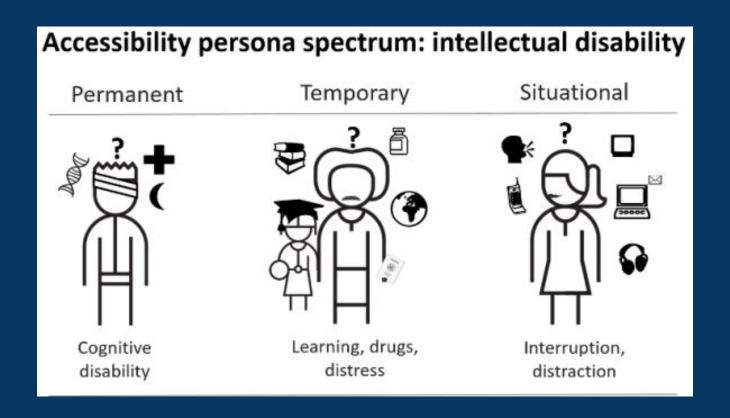

Nationwide, colleges and universities embrace the idea of a diverse student body, inclusive of students with disabilities.

But creating a campus that is physically and technologically accessible to students with disabilities takes **leadership**, **planning**, **and commitment**.

National Federation of the Blind

11% of Higher Education students in the US have some kind of disability

National Center for Education Statistics

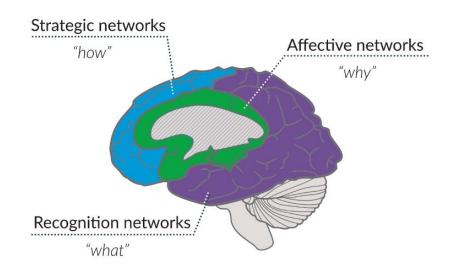

<u>The accessibility persona spectrum and intellectual disability</u> - August 30, 2019, Christopher Madden

Universal Design for Learning (UDL)

Design and deliver media in multiple formats

Provide multiple means of:

- engagement
- action and expression
- representation

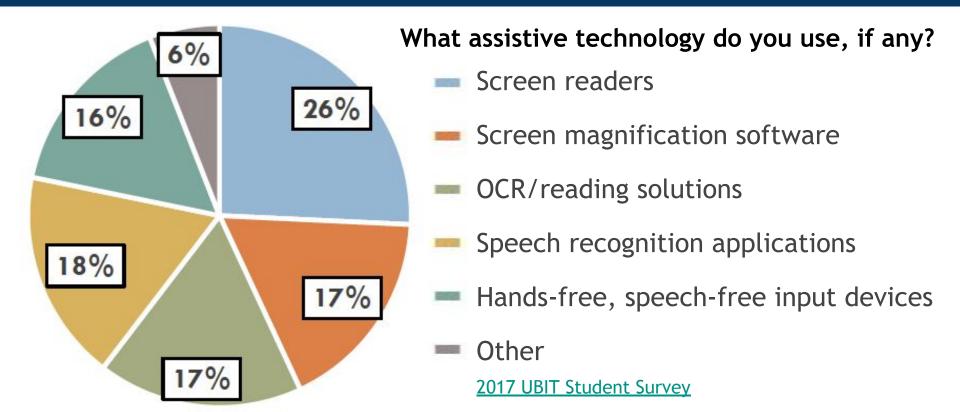

Universal Design for Learning (UDL)

Faculty need to share universally designed course content, in addition to recorded and live video!

- Provide PPT with detailed speaker notes
- Transcripts
- Outlines
- and audio files as well

Format	Barrier	Accessible Alternative
Printed text	Incompatible with screen readers used by blind/low vision students & students with learning disabilities (LD)	Supplement with audio
Audio	Hearing impaired students may not hear it; students with LD (auditory processing) may have difficulty understanding it	Supplement with printed text
Video	Blind/low vision students may not see it; hearing impaired students may not hear it; students with LD (auditory processing) may have difficulty understanding it	Provide description, captions or written transcript
Picture	Blind/low vision students may not see it	Add text that fully describes the image.
Synchronous discussion	Blind/low vision students, students with LD & ADHD, students with medical/physical & psychological disabilities may have difficulty following & keeping up	Use asynchronous format for all or some discussions to allow more time for processing & responding
Tests/Quizzes	Many students with disabilities have slower processing speed that impacts performance (e.g., LD and ADHD, medical/physical & psychological, blind/low vision, hearing impaired) Improving Access: Best Practices for Developing Course Material	Provide extended time; Supplement with audio; Provide large text size option
