

# SUNY TECHNOLOGY CONFERENCE

Empowering Education Through Technology

The SUNY Technical Conference (STC) is a dynamic gathering that unites IT and AV coordinators, directors, and leading industry vendors. The conference fosters collaboration and let's you make strategic connections with professionals whose goal is to enhance SUNY campuses with the latest products and innovations.

Established in 1992, the conference has been a pivotal annual event uniting IT experts and exhibitors. Over 300 IT and AV professionals from all 64 SUNY campuses attend STC each year. From technicians to campus CIOs, attendees support all types of IT and AV infrastructure.

More than 75 booths will be available in the exhibition hall, set in the historic 1932 rink. Platinum, Gold, Silver, and Booth display participation packages are available across the multi-day conference. Registered exhibitors are connected with attendees at all meals, open presentations, and networking events including our special social events.

## See you there!
